Dr. Craig Spencer MD, MPH is an Associate Professor of Clinical Medicine at Columbia University Medical Center, Attending Physician in Emergency Medicine at New York Presbyterian Hospital in New York, NY and also a Wayne State University medical school alumnus. As a field epidemiologist, he has been involved in numerous projects measuring access to medical care and human rights in Africa and Southeast Asia. In addition to his international public health work, Dr. Spencer has worked clinically providing medical care in the Caribbean, Central America, East Africa, and most recently in West Africa during the Ebola epidemic. During his work with Doctors Without Borders in Guinea October 2014, Dr. Spencer was infected with the Ebola virus and was subsequently treated at Bellevue Hospital Center in New York City.
