WE WANT YOU!

Do you remember how you felt the first couple of weeks as a newbie in our Master's/PhD program? How lost you felt?
The sheer amount of information and not knowing anyone to ask questions?

We want to change that and help new students get acclimated very fast and ease their transition into the program: From students - for students!

Become a mentor and help to welcome new students into our department by being a go-to person when questions arise.
Contact Anabel Stoeckle if you would like to get involved!

Cheers,

Anabel
